This serial PCI RS232 I/O card adds two high-speed 9-pin serial PCI COM ports to any PCI-equipped PC. It uses an all-in-one high quality chipset MosChip solution which provides superior performance and unmatched serial PCI data transfer rates.

Easy Plug and Play installation - automatically configures next available serial PCI COM port and IRQ address. Serial PCI COM ports can easily be renamed with the included COM port Redirect Utility.

Connecting external modems, serial printers, handheld PDAs, mice and trackballs, keypads, serial POS devices, digital cameras and more has never been easier.

Application example: Dual serial communication from one PCI card.
