

USB to 2 x RS485/422 Converter
Part no. UTS-M12

Industrial and commercial strength USB to 2-port RS485/422 converter hub optimized for Vista and Windows 7. With this unit you can easily add two serial RS485 or RS422 COM ports to almost any computer with a standard USB port. Surge and static protection up to 15KV protects both COM ports.

The COM ports can be set as either 2 x RS485, 2 x RS422 or 1 x RS485 and 1 x RS422. This converter is built around a quality FTDI processor chip which makes it the ideal choice for applications where reliability and performance is critical.

Application example dual RS485 point-to-point:
